OBJECTIVE

An ambitious and dedicated individual looking forward to improve my education, put my skills to test and gain exposure

EDUCATION

- **BMS COLLEGE OF ENGINEERING** *Bengaluru, Karnataka*
Bachelor of Engineering in Electronics and Telecommunication
Current CGPA: 7.11/10

PROJECTS

EasyPay [🔗](#) | *ReactJs, TailwindCSS, JavaScript, Express.js, MongoDB, JWT* Apr 2024 - Apr 2024

- This project is a web application enabling user registration, sign-in, and money transfers among users.
- Dynamic Dashboard: Upon signing in, users are directed to a dynamic dashboard displaying registered users and their current balances, facilitating seamless money transfers.
- Real-time Updates: Enjoy real-time balance updates post-transaction, ensuring accurate and up-to-date account information for all users.

Youtube Front Page Clone [🔗](#) | *ReactJs, Tailwind, TypeScript* Feb 2024 - Mar 2024

- This project is a clone of YouTube built using React, Tailwind CSS, and TypeScript. It aims to replicate the core features and functionalities of YouTube, such as browsing videos, searching, and playing videos.
- React: Used for building the user interface & Tailwind CSS: Utilized for styling the components and creating a modern UI.
- TypeScript: Enhances code quality and provides better developer experience with static typing.

HOSTEL MANAGEMENT SYSTEM | *DBMS, SQL, PHP* Oct 2023 - Dec 2023

- Developing a hostel management website with SQL database integration, empowering students to conveniently book available rooms.
- Providing real-time room availability status for transparent and efficient booking processes.

SKIN CANCER PREDICTION USING CNN | *Python, OpenCv, Deep Learning* April 2023 - June 2023

- Designed a multiclass classification model using Convolutional Neural Networks (CNN) in TensorFlow, the purpose of the model is to accurately detect melanoma, a type of skin cancer
- The model was trained on a dataset containing labeled images of melanoma and non-melanoma cases, the CNN architecture was employed to extract features from the images and classify them into different classes

TECHNICAL SKILLS

Languages: C++, JavaScript,, HTML, CSS, TypeScript

Libraries & Frameworks: React.js, Next.js, Tailwind, Node.js, Express.js, EJS, jQuery, Bootstrap

Databases & Tools: SQL, MongoDB, PostgreSQL, Git, VIM

Relevant Courses: Data Structures and Algorithms, Object Oriented Programming, Operating Systems, Machine Learning, Deep Learning, Computer Networks, DBMS, Network Security

STRENGTHS

- Analytical and strategic thinker, Quick learner, Good communicator, Creative, Debugging, Flexible, Team-oriented, Reliable.

ROLES OF RESPONSIBILITY

- President of technical club CodeLocked
- Member of the Newsletter Committee
- Event Coordinator for events like Tecathalon, Shatranj
- Coordinator and Member of the Organising Committee for College fest
